

Job Applicant, Consent for Drug and Alcohol Testing

I acknowledge these tests are to determine whether illicit or restricted drug(s) or a misused prescribed drug(s) present in my urine, at concentrations higher than the accepted international standard as defined by the AS/NZS 4308:2008. I understand that the drugs being tested for are cannabinoids, opiates, amphetamine-type substances (incl. benzylpiperazine), cocaine, benzodiazepines, (and others if applicable). Also, to determine whether I have a level of alcohol in my breath above 400 micrograms of alcohol per litre of breath (over 20 years of age), or above 150 micrograms of alcohol per litre of breath (under 20 years of age).

I undertake to advise the CCA collecting my urine of any medication that I am taking. I also agree to provide the collecting agent with photograph identity, if required to do so. I consent to the results of the drug test(s) being communicated confidentially to the authorised representative of **LOGMASTER TRUCKING**. I understand that the decision whether or not to employ me will be based on many factors, including testing results, and that **LOGMASTER TRUCKING** is not required to explain the basis for its decision. I may request a copy of my results.

I understand that I may request a second confirmatory test be conducted on the 'duplicate specimen and analysed within 14 days of receiving the result. For the second test to be non-negative there need only be the presence of drug or metabolite detected (i.e. not cut off limits). This will be accepted as a conclusive result. I reserve the right to waive a second confirmatory and do so by signing here:

Applicant s signature _____ Date ____ / ____ / ____

CCA signature _____ Date ____/____/____

Witness signature _____ Date _____ / _____ / _____

Witness name _____ Reading _____

Tick those that apply: Drugs () Not negative
 Breath alcohol () Not negative

1 A witness is needed for a confirmatory alcohol test because the result of the test is final. The witness shall record the reading
